

“Vaccines for the 21st Century”

In commemoration of the 10th Anniversary of International Vaccine Institute

**Convention Center, Hoam Faculty House, Seoul, Korea
April 2, 2008**

To commemorate its 10th Anniversary, the IVI will stage an International Symposium on “Vaccines for the Twenty First Century”, on **April 2, 2008** at Convention Center of Hoam Faculty House next to Seoul National University campus. Aimed at promoting vaccine science in Korea, this symposium will gather several of the world’s most renowned experts in the field of vaccine science. These experts will review state-of-the-art developments in vaccines and will provide an opinion on the challenges that vaccinology will face during the next decade.

We are pleased to invite you to join us on this very special event.

➤ **Invited speakers include;**

- Sir Gustav Nossal (*The University of Melbourne, Melbourne, Australia*)
- Dr. John T. Schiller (*National Cancer Institute, NIH, Bethesda, USA*)
- Emeritus Professor Ho Wang Lee (*The Hantaan Life Science Foundation, Seoul, Korea*)
- Professor Françoise Barré-Sinoussi (*Institut Pasteur, Paris, France*)
- Professor Jan Holmgren (*University of Gothenburg, Gothenburg, Sweden*)
- Emeritus Professor Ian Gust (*University of Melbourne, Melbourne, Australia*)
- Professor Ruth Arnon (*The Weizmann Institute of Science, Rehovot, Israel*)
- Adjuv Professor Margaret A. Liu (*Karolinska Institute, Stockholm, Sweden*)
- Dr. Scott Halstead (*The International Vaccine Institute, Seoul, Korea*)
- Dr. John D. Clemens (*The International Vaccine Institute, Seoul, Korea*)

➤ **Program**

09:00 - 09:10 Welcome to participants

KEYNOTE LECTURE

09:10 - 09:55 A decade of progress in global immunisation
Sir Gustav Nossal (*The University of Melbourne, Melbourne, Australia*)

SESSION I

Session Chairperson: Prof. Ho Wang Lee (*The Hantaan Life Science Foundation, Seoul, Korea*)

09:55 - 10:40 Gene-based vaccines

Prof. Margaret A. Liu (*Karolinska Institute, Stockholm, Sweden*)

10:40 - 10:55

Coffee Break

10:55 - 11:40

HPV vaccines for the prevention of cervical cancer

Dr. John T. Schiller (*National Cancer Institute, NIH, Bethesda, USA*)

11:40 - 12:25

Cholera toxin - a foe and a friend

Prof. Jan Holmgren (*University of Gothenburg, Gothenburg, Sweden*)

12:25 - 13:30

Lunch

SESSION II

Session Chairperson: Dr. Cecil Czerkinsky (*The International Vaccine Institute, Seoul, Korea*)

13:30 - 14:15

Epitope-based vaccines - potential application for infectious, neoplastic and autoimmune diseases

Prof. Ruth Arnon (*The Weizmann Institute of Science, Rehovot, Israel*)

14:15 - 15:00

Development of the first Hepatitis A vaccine

Prof. Ian Gust (*The University of Melbourne, Melbourne,*

Australia)

15:00 - 15:45

Emergence and control of Hantavirus diseases

Prof. Ho Wang Lee (*The Hantaan Life Science Foundation, Seoul, Korea*)

15:45 - 16:00

Coffee Break

SESSION III

Session Chairperson: Prof. Margaret A. Liu (*Karolinska Institute, Stockholm, Sweden*)

16:00 - 16:45

Lessons from two decades of HIV/AIDS vaccine research

Prof. Françoise Barré-Sinoussi (*Institut Pasteur, Paris, France*)

16:45 - 17:30

Dengue vaccines: the challenging future

Dr. Scott Halstead (*The International Vaccine Institute, Seoul, Korea*)

17:30 - 18:15

The IVI: the first 10 years

Dr. John D. Clemens (*The International Vaccine Institute, Seoul, Korea*)

GENERAL DISCUSSION

18:15 - 18:40

Round table with the speakers
