

# International Symposium on the Epidemiologic Investigation of Unexplained Respiratory Disease

- DATE : 8-9<sup>th</sup> Nov 2016
- VENUE : Lee Kun-Hee Auditorium(2F),  
Seoul National University Cancer Research Institute

## Greeting

Over the past years, we Koreans have experienced some respiratory disease outbreaks of unknown etiology or emerging infectious disease. These were a respiratory disease by use of humidifier disinfectants, an outbreak of Middle East respiratory syndrome (MERS), and pneumonia outbreak of unknown etiology among students at a university.

Therefore South Korea government including Korean Centers for Disease Control and Prevention (KCDC) now is in the effort to establish a plan for response to these unexplained respiratory diseases.

This conference will be held as part of the project execution (sponsored by KCDC), and the main purpose of this conference is to bring together experts in epidemiologic investigation of unknown respiratory diseases including respiratory infectious disease and to share their best practices and experiences.
