# *KAI 2015 Fall Conference*

## *The Korean Association of Immunologists*

### 2015년 대한면역학회 추계학술대회

November 12 (Thu) ~ 13 (Fri), 2015  
Sejong University Convention Center, Seoul, Korea

## INVITATION

Dear KAI Members and Colleagues,

On behalf of the organizing committee, it is my great pleasure to invite you to the 2015 Fall Conference of the Korean Society of Immunologists (KAI) to be held in Seoul. The conference will take place from Thursday November 12 to Friday November 13, 2015, at Sejong University Convention Center in Seoul, Korea.

In this upcoming conference, we anticipate over 1,000 participants will be in attendance, including domestic and international leaders that will present the most recent advances in basic immunology and clinical treatments. Plenary speakers include James P. Allison (MD Anderson Cancer Center) and Marc K. Jenkins (University of Minnesota). In addition, we are preparing four Special Lectures and Eight Block Symposia with world renowned scholars and experts in different divisions and Oral Presentations for young investigators. We are also planning various events, so all of the participants will be able to enjoy the conference of this year.

I am pretty sure that the conference will provide a key networking and educational interface for colleagues from university, industry, health providers and independent research organizations to come together. We hope all the participants will have a meaningful time as exchanging recent progress and knowledge and networking with KAI members and global experts. Your participation in the conference will enrich the scientific discussions and activities and contribute to further development of KAI.

We, members of the organizing committee, are looking forward to seeing you in Seoul.

Warmest greetings to all,

**Jong-Seok Lim, Ph.D.**  
**President of the Korean Association of Immunologists**
